## Professional Summary

Senior Frontend Developer specializing in Angular and React, with experience building enterprise, electricity-utility and ERP interfaces. Focused on frontend architecture, state management, responsive user interfaces, real-time communication and web performance. Sharjbook is a publicly accessible example of this web development work.

## Core Skills

**Frontend:** Angular, React, TypeScript, JavaScript, RxJS, Signals, HTML5, CSS3, Sass/SCSS

**State Management:** NgRx Store, Effects, Entity, Router Store, ComponentStore; Redux, Redux Toolkit

**Architecture:** Nx, Micro Frontends, Module Federation, Design Systems, Atomic Design, Clean Architecture, Domain-Driven Design (DDD)

**User Interfaces:** PrimeNG, Angular Material, Tailwind, Bootstrap, responsive design, accessibility

## Professional Experience

### Senior Frontend Developer — ShayganTadbirParsian

Tehran, Iran | On-site | Start window: May-Jun 2022

- Developed the Sharjbook product website with Angular and TypeScript in an Nx workspace, presenting features, pricing and guides in a responsive Persian RTL interface.
- Implemented prerendering, metadata and structured data with AnalogJS for SEO, and connected the frontend to REST APIs.

### Senior Frontend Developer — TKC

Tehran, Iran | Start window: Jun-Jul 2019 | Ongoing

- Develop web and mobile interfaces with Angular and React, optimize loading performance and improve websites for search engines.

### Senior Frontend Developer — Kingrose+

Istanbul, Turkey | Full-time, remote | Started: 2019

- Developed an ERP frontend with React and Redux; built forms and data tables using Formik and React Table within an Atomic Design structure.

### Frontend Developer — alotennis

Tehran, Iran | Part-time | Started: Dec 2017

### Frontend Developer — Andishe Computer

Tehran, Iran | Start window: Jun-Jul 2016

- Developed Angular interfaces for electricity-utility Billing and Green Electricity payment portals, with NgRx state management and REST API integration.

### Frontend Developer — Pezhvak Andishe Farzin

Tehran, Iran | Full-time | Started: 2016

### Frontend Developer — RayaWeb

Tehran, Iran | Part-time | Started: May 2015

## Projects

### Sharjbook - Building Management Product Website

Publicly accessible work sample: sharjbook.com

- Built a responsive Persian RTL interface with Angular, TypeScript and SCSS in Nx for product features, pricing and user guides.
- Prerendered pages with AnalogJS and Vite; configured metadata, canonical URLs and structured data for SEO.
- Integrated REST APIs through Angular HttpClient and managed data streams and errors with RxJS.

Angular · TypeScript · AnalogJS · Nx · Vite · SCSS · RxJS · REST API · Prerendering · SEO

---

### Kingrose+ ERP - Turkey

Start window: Feb-Mar 2019 | Senior UI Developer | Remote

- Developed the frontend with React and Redux, organizing reusable components through Atomic Design.
- Implemented forms with Formik, data tables with React Table and interface styling with Bootstrap.

React · Redux · Bootstrap · Formik · React Table · Atomic Design · Functional Programming

---

### Electricity Distribution Billing System

Andishe Computer | Start window: Jun-Jul 2016 | Senior UI Developer | Internal project

- Developed interfaces for electricity connection sales, inventory operations, meter installation and service-desk workflows.
- Built the UI with Angular and PrimeNG, managed state with NgRx and integrated REST and WebSocket services.

Angular · TypeScript · PrimeNG · NgRx · Angular Universal · WebSocket · REST API

---

### Green Electricity - Online Bill Payment Portal

Andishe Computer | Start window: Jun-Jul 2016 | Senior UI Developer

- Developed the interface for an online electricity bill payment portal supporting the transition away from paper bills.
- Implemented Angular Material interfaces, RxJS and NgRx data flows, and REST API integration.

Angular · TypeScript · Angular Material · NgRx · RxJS · Angular Universal · REST API

---

## Additional Skills

**Motion & Interaction:** Angular Animations, CSS animations/transitions, scroll-driven animations, IntersectionObserver, prefers-reduced-motion

**PWA:** Progressive Web Apps, Angular Service Worker, Web App Manifest, install prompt, app-shell/runtime caching

**Real-time Communication:** WebSocket, Microsoft SignalR

**Data & Rendering:** Next.js, REST, GraphQL, Dexie.js, Angular Universal, SSR, AnalogJS, NestJS

**Development Tools:** Git, Docker, CI/CD, Azure DevOps, Webpack, Vite, Jest, Vitest, ESLint, Prettier, Storybook, lazy loading, bundle optimization

**Other Experience:** MobX, Recoil, XState, Thunk/Saga, Formik, React Table, WordPress

**Familiar With:** Vue, React Native, NativeScript, Flutter
